

Ibrahim FARYSSY

Network & Security Engineer

faryssy.ibrahim@gmail.com | +33 (0)7 58 68 74 14 | Open to relocation

PROFILE

Cybersecurity-focused Computer Engineering graduate with hands-on experience in security hardening, CI/CD pipelines, and full-stack development. Seeking a first Network or Security Engineering role where I can apply my knowledge of network architecture, vulnerability remediation, and systems security. Open to relocation.

TECHNICAL SKILLS

Networking & Security: TCP/IP, TLS/SSL, PKI, Certificate Authorities, VPN concepts, GDPR compliance, session security, OWASP

Security Tools: Git (version control), GitLab CI, Docker (containerisation & isolation)

Systems & OS: Linux (Ubuntu/Debian), server administration, OS migration, automated backups

Programming: Python, JavaScript/TypeScript, C, C++, Java, OCaml

Frameworks & DBs: Node.js, React.js, Flask, Django, Spring Boot, PostgreSQL, MongoDB

Languages: French (C1), English (C1), Spanish (C2)

PROFESSIONAL EXPERIENCE

Software Developer — Security & Infrastructure Focus | **GE Healthcare** — Buc, France

Jul 2025 – Dec 2025

- Identified and remediated user session vulnerabilities, strengthening authentication security
- Renewed and updated Certificate Authorities (PKI infrastructure management)
- Audited and enforced GDPR compliance across the internal application
- Implemented a GitLab CI/CD pipeline, automating build, test, and deployment workflows
- Automated periodic database backups, reducing risk of data loss
- Migrated hosting server OS and updated the database to current supported versions
- Refactored legacy codebase and delivered new features (team meeting module)

Full-Stack Developer | **KWYK** — Paris, France

Jun 2023 – Jul 2025

- Designed and developed interactive educational exercise templates (fill-in-the-blank, crosswords)
- Improved usability and accessibility of existing exercise components
- Wrote unit tests and conducted code reviews to ensure software quality
- Built and validated exercise logic across maths, physics-chemistry, and algorithms

EDUCATION

Computer Engineering — Cybersecurity Specialisation — **CY Tech (formerly EISTI)**, France

Sep 2022 – Apr 2025

- Network Architecture, Cryptography, Systems Security, Testing & Verification
- NASM Programming, Computer Architecture, Functional Programming (OCaml)
- AI, Graph Theory, Linear Optimization, Probability & Statistics

Computer Science — Exchange Programme — **Hanyang University ERICA**, Ansan, South Korea

Jan 2024 – Jun 2024

- Network Security, Systems Security, Computer Architecture
- Functional Programming — international academic environment

CERTIFICATIONS & IN PROGRESS

Currently pursuing: CompTIA Network+ / CompTIA Security+

Planned: Cisco CCNA
